

Gradescope

GETTING STARTED GUIDE

What is Gradescope?

Gradescope is a grading and assessment tool that helps streamline and standardize the grading process for a variety of assignments.

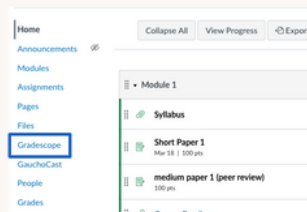

Features

- Flexible assignment types (multiple choice, code projects, handwritten diagrams, handwritten exams, presentations)
- Anonymous grading
- Team grading
- Exam analytics
- Integrates with Canvas

Uses

- Homework or problem sets
- Programming assignments
- Exams that use bubble sheets
- Online assessments

Where Can I Access Gradescope?

Access Gradescope through Canvas. It can be added to your course in settings.
